

IMMACULATA
HIGH SCHOOL
FAITH • SCHOLARSHIP • SERVICE • FRIENDSHIP

Schoolology is Immaculata's Learning Management System. PowerSchool, LLC acquired Schoolology in 2019, and discontinued PowerSchool Learning/Haiku in favor of Schoolology in 2022 (hence our transition from PSL to Schoolology that same year).

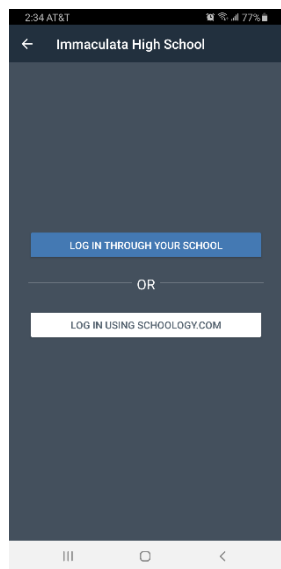

It is important for all students to know how to log into and navigate Schoolology, as teachers will use this platform to post assignments and resources on their class webpages / "feed." Parents are also encouraged to regularly log into Schoolology to support their child's academic progress. Any student or parent needing assistance accessing Schoolology should contact Immaculata's Technology Department by sending an email to service@immaculatahighschool.org.

Student and Teacher Login:

To login, students should go to <http://immaculata.schoolology.com>. This link can also be found on Immaculata's website. Once at this web address, **students will automatically be asked to login with Schoolology's Google integration**, and should proceed to enter their Immaculata G Suite email address and password.

Parent Login:

To login, parents should go to <http://immaculata.schoolology.com/login>, using the username and password provided to them at the beginning of the child(ren)'s time at Immaculata (or the beginning of the 2022-2023 academic year).

Schoolology App:

The Schoolology App is available for Apple and Android devices (see icon on the right). However, the web version of Schoolology is still the method most recommended by Immaculata's Technology Department to access class webpages and other information.

To login, **all students, teachers, and parents** should *first search for and select "Immaculata High School (5915113615)." After selecting Immaculata, students and teachers* should select "Log in Through Your School" (and use Schoolology's Google integration to login), which is the blue button shown in the screenshot on the left. **Parents** should select "Log in using Schoolology.com" (and use the username and password provided to them), which is the white button shown in the screenshot on the left.
